H. L. WORCESTER, Mayor.

EIGHTH

ANNUAL REPORT

OF THE

CITY OF ROCHESTER, N. H.

FOR THE

Year Ending December 31, 1899

PORTLAND, MAINE
LORING, SHORT & HARMON
1899

INAUGURAL ADDRESS

OF

MAYOR H. L. WORCESTER.

GENTLEMEN OF THE CITY COUNCIL:

In accordance with the provisions of our city charter and the laws of New Hampshire, the citizens have delegated to you their powers and chosen you their representatives to conduct the affairs of this city for the year ensuing.

How sacred that trust should be to you I need not say; not one among you but feels his deep responsibility, for from you is expected that rigid investigation into its affairs, that will enable you to act understandingly on all matters that may come before you, and thus the best interests of the city be subserved.

To us in a measure is intrusted the future welfare of our city. If we desire to induce new business to come to us, we must see to it that our tax rate does not assume excessive proportions; while on the other hand we must be able to present to them, as among the first conditions for their consideration, good schools, good highways, as well as ample police and fire protection; thus, while attending to the present, it is our duty to thoughtfully consider the needs of the future.

It is not my purpose to present at this time many suggestions, but after a more thorough knowledge of the affairs of the city and its needs, it will be my pleasure to place before you from time to time, with my recommendations, such matters as seem to demand your careful attention.

FINANCE.

The subject of finance is one of the greatest importance to our city. With an indebtedness of nearly four hundred thousand dollars, and its pressing needs in many directions, no expenditure of any amount should be made without the most careful scrutiny, and knowledge of absolute necessity for the same.

The tendency of the times is to extravagance; there is but one true way for city or citizens to conduct their affairs — go without what they cannot afford, otherwise they will sooner or later be placed in an uncomfortable position.

The following is a statement of the financial condition of our city as shown by its books:

Outstanding notes,	$ 86,010 93	
Bills approved not paid,	496 62	
Sewer bonds,	110,200 00	
		$196,707 55
Due on collector's list,	$17,699 07	
Portland & Rochester stock,	800 00	
Cash on hand exclusive of what belongs to water department,	10,964 91	
		$29,463 98
Indebtedness exclusive of water bonds,		$167,243 57

Section 11, Chapter 20, of the city ordinances provides that the surplus earnings of the water works be applied to the liquidation of said debt. About twenty-five thousand dollars having accumulated, I would recommend that if at any time said bonds could be purchased on a 3½ per cent. basis, that such a part, or all of said surplus, as the city council deem advisable, be used to purchase and retire said bonds.

HIGHWAY DEPARTMENT.

The question of how to keep our highways in a passable condition, and at the same time make any permanent improvement, is one that has troubled every administration for many years. With nearly one hundred and fifty miles of highway to keep in repair, it leaves little money for new and enduring roads without seriously burdening our citizens. In view of this fact I believe a certain part of the appropriation should be yearly expended in substantial work ; this practise continued will in a few years materially improve our roads.

Within a few years a surface of crushed stone has been used on the road leading to East Rochester with gratifying results. I believe it should be continued until a good road is completed between the two villages, and as soon as our finances will admit, continued to Gonic.

To properly superintend and repair our highways requires an ability and trainiug of the highest order. With the large amount of money yearly expended and the many miles of roads to care for, we can ill afford to intrust it to incompetent hands. No one should be given that position unless he be a practical road builder, and unless such a man can be obtained in town, I would seek one elsewhere, (as we do our supervisor of schools).

WATER WORKS.

Nothing conduces so much to the health and welfare of any people as pure water and pure air. The unsatisfactory condition of our water supply (both in quality and quantity), and how to remedy it without great expense to the city, have given the committee in charge much thought. I believe that very soon we will be compelled to lay another line of pipe from the city to the reservoir, for in event of a large fire, necessitating the use of several lines of hose, it would be impossible to reach the top of our highest buildings, while at times the quality is not what we desire.

I recommend that the committee having it in charge make a thorough investigation into the existing conditions, and make a full report of the same to the Council at the earliest practical moment, with their recommendations how best to obtain the desired result.

PUBLIC SCHOOLS.

The question of public schools and how to obtain the highest and best practical results, is one that has interested the American people from the foundation of our government, and at no time in its history has there been that pressing need of such a high grade of excellence in its graduates as now, the complex duties of life requiring everyone to be an expert in some line to insure success.

The question of sufficient and proper accommodation for our schools is one of great importance to us all. It has been so thoroughly discussed within the last year that I need not enter into it at this time, but with this fact in mind, that the Board of Health have pronounced some of our schoolhouses unhealthy and dangerous to send children to, no time should be lost in selecting a lot for a

school building, that the existing evils may be corrected as speedily as possible.

FIRE DEPARTMENT.

One of the serious conditions that confront us to-day is that of our fire department. With the unsatisfactory manner in which much of that valuable property is being cared for, I feel the subject of a fire station is one of imperative importance, the hook and ladder truck and hose carriage being kept in a place where it is impossible to preserve them with that care due such expensive apparatus, much of the hose being improperly dried, with no way of draining it, thus causing a waste we can ill afford.

With the present volunteer system, the members living in all parts of the city, we realize the need of an alarm gong that can be distinctly heard under any and all conditions. I recommend the committee on fire department give the subject that consideration which its importance demands.

PUBLIC LIBRARY.

Unless one has closely observed the progress of our public library they can hardly realize its great importance to our city. While its works of fiction are largely read, it is to its volumes of history and books of reference we look for its best results, and the demand for this class is increasing beyond the power of the library to supply. In view of its pressing need I feel we should be as liberal in its appropriation as the financial condition of our city will warrant.

In conclusion allow me to say, I fully appreciate the honor of being your associate in the work of the city in the closing year of the century.

I know each one of you must make some sacrifice in accepting these responsibilities, and I feel I may confidently look to you for that fairness that will enable you to discuss all questions arising, with the dignity due your honored position, and it will be my whole aim, with your counsel and assistance, to labor for the best interest of those who have confided to us, their welfare and their honor.

CITY GOVERNMENT.

AS ORGANIZED JANUARY 3, 1900.

MAYOR, HORACE L. WORCESTER.

City Clerk.....CHARLES W. BROWN
Treasurer.....JOHN L. COPP
City Solicitor.....SAMUEL D. FELKER

Sherwood W. Goodwin, John H. Neal, Chas. Blazo.

ASSESSORS.

Henry F. Walker, Nahum Yeaton, S. F. Shorey.

TRUSTEES PUBLIC LIBRARY.

Mayor H. L. Worcester, George L. Harrington, Sumner Wallace, Stephen C. Meader, John Young, James Farrington, Willis McDuffee.

SCHOOL BOARD.

Mayor H. L. Worcester, Wilbur F. Cole, Chas. E. Reed, Arthur L. Brock, William M. Ames, Samuel D. Felker, Nahum Yeaton, Dr. Ernest Duval, Leslie P. Snow, John Hanscam, J. Frank Springfield, Dr. D. L. Stokes, Henry M. Plumer.

STANDING COMMITTEES.

Finance.—The Mayor, Councilmen Wallace and Hayes.

Shade Trees, Parks and Commons.—The Mayor, Councilmen Marcotte and Richards.

Public Instruction.—The Mayor, Councilmen Hayes and Geddis.

Claims and Accounts.—Councilmen Ricker, Ames and Springfield.

Public Buildings.—Councilmen Maguire, Jacobs and Keates.

Roads, Bridges and Drains.—Councilmen Wallace, Seavey and Greenfield.

Water Works and Sewerage.—Councilmen Trask, Meader and Barker.

Fire Department.—Councilmen Greenfield, Maguire and Marcotte.

Street Lights.—Councilmen Fogg, Seavey and Ricker.

Printing.—Councilmen Springfield, Poisson and Geddis.

Adams and Old Cemetery Funds.—Councilmen Ames, Richards and Ricker.

Elections and Returns.—Councilmen Meader, Trask and Keates.

Bills in their Second Reading and Enroled Ordinances.—Councilmen Barker, Fogg and Seavey.

Legal Affairs.—The Mayor, Councilmen Hayes and Barker.

Purchasing Committee.—The Mayor, Councilmen Meader and Wallace.

Police.—The Mayor, Councilmen Trask and Meader.

COUNCILMEN.

Ward One	John D. Fogg, George A. Jacobs, Sidney B. Hayes.
Ward Two	David M. Ames, George O. Richards, James Geddis.
Ward Three	Charles H. Seavey, Stephen C. Meader, Charles H. Keates.
Ward Four	Isadore P. Marcotte, Peter Poisson, Geo. H. Springfield.
Ward Five	Charles F. Trask, Frank B. Maguire, John Greenfield.
Ward Six	Albert Wallace, Charles S. Barker, Charles E. Ricker.

WARD OFFICERS.

Ward One.

Moderator.....Ezra Pray
Clerk.....Joel W. McCrillis
Selectmen.....Elmer E. Loud, Wilbur F. Cole, John W. Clark.

Ward Two.

Moderator.....Harlan P. Horne
Clerk.....Frank P. Whitehouse
Selectmen.....Chas. H. Wormhood, Frank Sleeper, Ernest E. Berry.

Ward Three.

Moderator.....George W. Osborne
Clerk.....Louis M. Richardson
Selectmen.....Chas. A. Watson, Bickford Rand, Noah A. Jenness.

Ward Four.

Moderator.....Arthur L. Berry
Clerk.....Joseph L. Jacques
Selectmen.....Aurelle Beaudoin, J. Frank Reed, Richard Thompson.

Ward Five.

Moderator.....Frank I. Smith
Clerk.....Chas. A. Jellerson
Selectmen..... { William K. Kimball, Chas. W. Gerrish, Chas. W. Campbell.

Ward Six.

Moderator. .....Chas. E. Woodward
Clerk.....Alex. H. Durgin
Selectmen..... { Patrick Keating, J. Harry Parquette, David M. Brock.

Special Police.—William A. Hanscam, Chas. W. Chisholm, Horace H. Mills, Moses E. Sterrett, Cyrille Vachon, Frank A. Blackmar, Nahum F. Woodman, Rodney E. Cross, Francis Armstrong, Henry C. Walker, James Connell, John F. Quinlan, Patrick Keating, James Brannon, Frank H. Pettigrew, Frank S. Edgerly, Chas. H. Tebbetts, Ernest J. Dame, Hartley S. Wormhood, Frank Calef, Warren Coburn, J. Henry Wiley, Wm. O. Morrill, Peter Gagne.

Weighers.—John W. Tebbetts, Wm. O. Morrill, Ernest S. Goodwin, Daniel F. Jenness, John G. Morrill.

Sealer of Weights and Measures.—Chas. M. Bailey.

Surveyors of Wood and Lumber.— Nahum Yeaton, Nahum F. Woodman, Frank B. Preston, Sidney B. Hayes, Edmund Elliott, J. T. Whipple, Arthur L. Berry.

Bonds, Series 4,	6,500 00
Interest on sewer bonds,	3,870 00
Schools, schoolbooks and supplies, in addition to Literary Fund and dog licenses,	19,000 00
Health department,	200 00
Total,	$79,963 95

W. G. Bradley,
Albert Wallace,
Charles F. Trask,
Committee on Finance.

RESOLUTION OF APPROPRIATION.

Resolved by the City Council of the City of Rochester :—

That for the support of the various departments for the ensuing year there be raised by taxation the sum of $78,-142.45, and that the balance necessary to make the amount called for by the Finance Committee be taken from the amount coming from the State.

Passed January 24, 1899.

RESOLUTION OF APPROPRIATION FOR MACADAMIZING ROADS.

Resolved by the City Council of the City of Rochester :—

That the sum of five thousand dollars be raised on note or notes of said city for the purpose of macadamizing the highways, and that said sum of five thousand dollars shall constitute a portion of the city debt.

Passed June 6, 1899.

RESOLUTION FOR SCHOOLHOUSE AND LOT.

Be it Resolved by the City Council of the City of Rochester :—

That the sum of twenty thousand dollars be and is hereby appropriated for the purchase of a lot in Rochester Village, and the erection thereon of an eight-room school building. The location and style of said building to be left to a joint committee of three members of the School Board and three members of the council. Said sum to be raised on note or notes of the city and constitute a portion of the city debt.

Passed September 15, 1899.

ITEMIZED ACCOUNT OF THE EXPENDITURE OF THE SEVERAL DEPARTMENTS.

FOR THE YEAR ENDING DECEMBER 31, 1899.

HIGHWAYS.

ADAMS FUND.

This is a bequest left in trust to the town of Rochester forever, the income of which is to be paid to the poor widows, orphans and maiden ladies of the city of Rochester. The fund was paid to the following persons in 1899:

Abigail Horne,
Mary J. Corson,
Hannah E. Foss,
Abby D. Hayes,
Sarah A. Durgin,
Ruth A. Philpot,
Sarah A. Hurd,
Carrie A. Beecher,
Emeline Page,
Francis E. Dearborn,
Betsy C. Clayton,
Lydia C. McDuffee,
Elizabeth A. Hall,
Olive E. Ricker,
Lizzie Hanscam,
M. M. Chesley,
Bridget Carroll,
Sarah A. Yeaton,
Lena Rieple,
Carrie A. Gile,
Eliza A. Bragdon,
Katie Blake,
Martha D. Hayes,
Lucretia Foss,
Lovey Howard,
Priscilla M. Foss,
Grace V. Hussey,
Sarah J. Jackson,
A. M. Demming,
Rebecca Brown,
Susan E. Gould,
L. Abbie Dame,
Sarah L. Fuse,
Mary Nute,
Mary G. Perkins,
Alice McMullin,
Sarah E. Hooper,
Ann Quimby,
Servesta B. Page,
Mrs. E. D. Grace,
Mrs. P. C. Sampson,
Julia Shapleigh,
Mrs. Saunson,
Dorothy Clark,
Mahala Horne,
Lucinda Plummer,

Elizabeth W. Chase,	Mary H. McCrillis,
Joanna M. Linscott,	Mary Davidson,
Mary E. Nutter,	Lizzie A. Hoyt,
Mary Webber,	Margaret Pollock,
Lydia E. Jenness,	M. A. Marginson.

The above named received eight dollars each. The committee on this fund give it to the following named persons only. Those who are needy and have been residents of Rochester for at least ten years, aged ladies unable to work and who have no money at interest or near relatives able to support them, or who do not draw a pension from the United States. It is the purpose of the committee to give it to those who are worthy. The committee for 1900 are David Ames, Geo. O. Richards and Chas. E. Ricker. All who expect to draw the fund must fill out the application and return it to the City Clerk's office on or before December 31.

EXPENDITURES OF THE WATER DEPARTMENT,

REPORT OF OVERSEER OF POOR.

To the Mayor and City Council of the City of Rochester:

I herewith submit my annual report of all the transactions for the past year. I am sure that there are very few outstanding bills.

Following is a list of those receiving aid and the amount furnished each applicant.

DEPENDENT SOLDIERS' AID.

Mrs. Samuel McIntire,	$ 44 40	
Charles G. Jenness,	11 50	
John Kent,	22 00	
Albert F. Seavey,	18 23	
Jerry W. Hall,	20 00	
David Corson,	72 00	
Hiram Mace,	5 20	
Mrs. John A. Wilkinson,	94 06	
Horace Buckman,	105 06	
		$392 45

CITY POOR.

Frank Kenniston,	$ 4 00
Winslow F. Blackmar (wife and child),	16 00
Charles V. Foss,	7 00
Mrs. Mary Nute,	82 00
Alex McDonald,	179 60
Patrick Lone,	222 42

Albert Hartford (board of child),	16 00	
Amos Tufts,	56 96	
Louis Labree,	7 00	
Stephen P. Colomy,	60 00	
James Markey (board of Thomas and Frank Markey at St. Joseph's Boys' Home at Manchester),	120 00	
Miss Carrie M. Tibbetts, (support at insane asylum),	124 25	
Mrs. Mary Warburton (support at insane asylum),	93 26	
		$988 49

PAID FOR BOARD OF CITY POOR AT COUNTY FARM.

Thomas Carroll,	$104 00	
Edwin Carroll,	104 00	
John H. Worcester,	20 00	
George Wentworth,	100 00	
George Smith,	2 00	
James Markey,	30 00	
Charles V. Foss,	11 00	
		371 00
Total amount,		$1,751 94

CREDIT.

Appropriation for 1899,	$1,200 00	
Unexpended balance from 1898,	295 69	
		1,495 69
Amount expended in excess of appropriation,		$256 25

It will be readily seen from the above figures that the excess in expenditures over the appropriation is nearly covered by the bills of New Hampshire Insane Asylum.

The unexpended balance from last year (1898) was in reality no unexpended balance whatever, for there were outstanding bills which came in later and which were sufficient to wipe out the balance. I am authorized to report from the City Clerk that enough has been transferred from the Police Department to the Poor Department to balance the account.

I have taken pains to look over the reports from some of the towns and one city, at least, besides our own in Strafford County, and I find that our expenditures for the support of poor and dependent are much less in proportion to the population than any one of them. By reviewing the reports from year to year it will be seen that the total expenditures for any one year are about $1,500.00. It is practically an impossibility to hold the expenditures much under that amount. In fact they are quite as likely to exceed that amount, slightly, as they are to be kept within it. I, therefore, recommend that the appropriation be increased to $1,500.00 for the next year.

Respectfully submitted,

JOHN H. NEAL, *Overseer of Poor.*

December 31, 1899.

HIGHWAY DEPARTMENT.

Main Street has been macadamized from Stone bridge to concrete at Square at a cost of $759.99 ; also 1,567 feet on East Rochester road at a cost of $752.80.

There has been seven bridges in different parts of the city newly planked, and a part of them new cross timbers at a cost of $296.78. The bridge on Chestnut Hill road has been built at a cost of $91.88.

The road machine has been used on twenty-six miles of road beside light work in city, East Rochester and Gonic.

From twenty-five to thirty miles of bushes have been cut on the different roads during the year.

Thirty-two culverts have been taken up and relaid.

The city teams have drawn 900 tons of stone to crusher.

The snowplow has been used twenty-three times.

The sidewalks sanded twenty-one times.

329 feet of 6-inch pipe has been laid in new surface sewer on Sheridan avenue.

There has been 518 feet of surface sewer taken up and relaid.

2,800 feet of railing has been built in dangerous places in the city.

About $100 has been expended on stone wall at Willow Brook ridge.

SIDEWALKS.

There has been 1,000 feet of new brick sidewalk built at Gonic.

280 feet of sidewalk has been straightened and relaid in front of city building.

330 feet of plank has been removed, edge stone set and graded ready for concrete, on Liberty street.

Plank sidewalks have been removed and crushed stone used on 2,300 feet of sidewalk on different streets.

900 feet of sidewalks have been graded and crushed stone used on different streets.

1,500 feet sidewalks have been graded and no stone used on different streets.

494 feet of edgestone on hand and paid for.

REPORT OF CITY MARSHAL.

To the Honorable Mayor and City Council :

GENTLEMEN : — I have the honor to submit the following report of the Police Department for the year ending December 31, 1899 :

Whole number of lodgers for year,	871
Number of stores found open and secured,	9

In addition to the cases enumerated, service for the year has included the investigating of many matters that have not been brought before the court, attending to many complaints, and the devoting of much time in the effort to preserve order, protect property, and enforce law in the punishment of offenders.

I am pleased to say that every officer under my command has been prompt and efficient in the discharge of his duty.

Respectfully submitted,

NAHUM L. BERRY, *City Marshal.*

REPORT OF CLERK POLICE COURT.

To the City Council of the City of Rochester:

I herewith submit the following report for the year ending December 31, 1899.

There have been entered on the police court civil docket 27 cases, and on the criminal docket 174 cases for the following offenses:

Drunkenness,	35
Keeping spirituous liquors for sale,	67
Keeping malt liquors for sale,	26
Larceny,	7
Assault,	19
Assault on officer,	3
Keeping open Sunday,	3
Keeping open after ten o'clock,	1
Evading hotel bill,	2
Keeping house of ill-fame,	2
Selling cider,	2
Keeping cider for sale,	2
Noise and brawl,	2
Murder,	1
Threatening to do bodily harm,	1
Breaking and entering,	1
	174

DISPOSED OF AS FOLLOWS:

Settled,	122
Suspended,	12
Placed on file,	1
Discharged,	5
Committed to county farm,	2
Committed to jail,	11
Disclosed,	3
Bound over,	4
Quashed,	1
Appealed,	7
Allowed time to settle,	6
	174

I have collected for writ blanks and entries in civil actions $17.61, and have paid the same to the City Treasurer.

Respectfully submitted,

HENRY F. WALKER, *Clerk.*

Rochester, N. H., Jan. 2, 1900.

REPORT OF CITY SOLICITOR.

To the Mayor and Council of the City of Rochester:

GENTLEMEN:—There were pending, at the beginning of the year, thirteen appeal cases from awards made upon the widening and straightening of the highways. Of these, two cases, viz., the case of George McDuffee and that of John Hanscam has been adjusted by the City. Five of the remaining cases being those appeals from the layout and the awards made upon the main road over Rochester hill, the same was heard before the County Commissioners and after a four days' hearing, the awards were cut down from the amounts awarded by the City, except in the case of Mrs. Sarah A. Howe, which was increased to $\$17\frac{67}{100}$. The decision in these cases carry the costs of court and of the hearing before the commissioners upon the petitioners. These cases are still pending awaiting a motion made by the petitioners' counsel for the County Commissioners to direct who should remove the walls whenever the land is turned into the highway. There are remaining six cases which the City stands ready to try at any time the petitioners desire them heard, and have been continued during the past year without costs to either side. The amount involved in these six cases cannot be very large.

The case of Charles F. Trask & Co., vs. the City of Rochester, being an appeal from the award of damages made by the City Council in laying out the deep sewer in

1895, and having been pending since that time, was adjusted by agreement of parties and taken out of court. There is a small case now pending in the police court in which the City of Rochester is plaintiff and Mrs. F. I. Decater is defendant, in which the City seeks to recover for work done by the Superintendent of Water Works in the connection of the creamery with the public deep sewer.

It is a matter of congratulation that no suit, of any great magnitude, is pending against the City.

I wish to express my appreciation of the uniform courtesy shown me by his Honor, Mayor Bradley, City Marshal Berry, and by all other officers with whom I have been associated.

Respectfully submitted,

SAMUEL D. FELKER, *City Solictor.*

January 2, 1900.

REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and City Council of the City of Rochester:

I present the following report of the Fire Department, year ending December 31, 1899.

There have been 28 fire alarms in the city, also 1 at Hanson's shoe factory; 2 at East Rochester; 1 at North Rochester; 1 at Adams corner. I have also responded to 5 still alarms. We have purchased during the year 15 glass key boxes attached to the fire alarm boxes, also 2 call tappers for drivers' houses. I would make the following recommendations:

1st. That a steam gong be purchased. I saw the necessity of a more powerful alarm at Tuttle's fire; out of 55 firemen there were but 22 responded.

2d. That a new fire station be built. You all know that in the barn where the hook and ladder truck is kept, also the best hose wagon, the ammonia is ruining the apparatus; with no place to drain and dry the hose it is in danger of spoiling.

3d. That a chemical engine be purchased. If we had one I am sure that a great loss from damage by water would be prevented, as but a small stream is thrown and does great execution.

I thank the members of the Fire Department for their promptness and assistance during the year.

Respectfully submitted,

GEO. H. WEBSTER,

Chief Engineer.

LOCATION OF FIRE ALARM BOXES.

No.	
16	North Main street, corner Bridge street.
17	Main street, corner Congress street.
21	River street, corner Lafayette street.
23	Waldron avenue, corner Chestnut street.
25	North Main street, near Fairbanks & Rawson's store.
27	North Main street, near S. H. Burnham's.
31	Wakefield street, near old schoolhouse.
33	Hanson street, near Wrisley House.
34	Summer street, near Mrs. Roberts' stone house.
35	Portland street, near Gerrish's store.
37	Silver street, near electric light station.
41	South Main street, near Wallace's shop.
43	Upham street, near schoolhouse.
52	Charles street, corner May street.
54	Charles street, corner Woodman street.

INSTRUCTION TO CITIZENS.

1. Upon the discovery of a fire, notice should be immediately communicated to the nearest alarm box, the keys to which are in the hands of all the regular police, and in boxes near each alarm box.

2. Upon the discovery of a fire, or positive information of a fire, break the glass in the key box, unlock the box, pull down the hook once as far as it will go (without jerking), and then let go. Shut the door, but do not try to remove the key, as it is locked in a trap lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it.

3. All persons giving fire alarms are requested to remain by the box a moment, and if no clicking is heard in

the box, pull again; and if you still hear no clicking go to the nearest box, procure another key, and give an alarm from that.

4. **Never pull an alarm for a fire seen at a distance.**

Never touch a box except to give an alarm of fire.

Give an alarm for no cause other than actual fire.

Don't give an alarm for a chimney fire.

5. Owners and occupants of buildings are requested to inform themselves of the location of alarm boxes near their property. Be sure the alarm is promptly and properly given.

SIGNALS.

Two strokes of the bell is the all-out signal.

Six strokes of the bell is for a brush fire, or a fire at a distance, where the Fire Department will be needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

REPORT OF SUPERINTENDENT OF WATER WORKS,

For the Year Ending December 31, 1899.

Number of water services put in during the year,	35
" " " to date,	1,230
" old water services relaid with new pipe,	22
" feet of service pipe laid,	3,571
" " main pipe laid as follows:	
" " 4-inch pipe laid,	502
" " 6-inch "	1,400
" " 8-inch "	650
Total,	2,552

Number of gates put in as follows:	
" 4-inch gates put in,	1
" 6-inch " "	5
" 8-inch " "	1
	7

Number of hydrants put in during the year,	4
Total number of hydrants to date,	165
Number of hydrants repaired,	3

All hydrants have been properly oiled and painted and are all in good order.

Number of leaks repaired in service pipes.	7
" " " main "	8
" " " gates,	6
Total number of leaks repaired,	21

Have repaired the interior of Round Pond gatehouse, also have put in new screens.

Have cut and burned all the bushes around the gatehouses and Berry Brook.

The fence around the reservoir has been rebuilt with new posts and three strands of barbed wire.

The standpipe at Adams' Corner is perfectly tight and in good condition. I would recommend that it be cleaned out and painted the coming year.

Respectfully submitted,

L. P. Pickering, *Supt.*

REPORT OF SUPERINTENDENT OF SEWERS,

For the Year Ending December 31, 1899.

Number of sewer connections put in,	110
Total number of sewer connections put in,	610
Main sewer pipe laid in East Rochester as follows:	
Number of feet of 8-inch pipe laid,	315
" " 10-inch "	296
" " 18-inch "	1,361
" " 6-inch " in Rochester,	371
Total number of feet of sewer pipe laid,	2,343
Number of manholes built,	8
" catch-basins built,	15

Have laid 84 feet 10-inch cast iron pipe at the outlet of surface sewer at East Rochester.

Sewers have all been well flushed and are working well.

Have laid surface sewer for Highway Department, as follows:

Number of feet of 24-inch pipe laid,	54
" " 20-inch "	826
" " 8-inch "	358
" " 18-inch "	780
" " 15-inch "	64
" " 6-inch "	329
Total,	2,411

Respectfully submitted,

L. P. PICKERING, *Supt.*

ANNUAL REPORT OF BOARD OF HEALTH.

To the Mayor and City Council of the City of Rochester, N. H.:

We, at this time, submit to you our report for the year ending December 31, 1899, in compliance with the ordinances of the city of Rochester. The past year has been unusually free from epidemics and contagious diseases. There have been no deaths from typhoid fever or diptheria and there has been but one death from scarlet fever.

Whole number of contagious diseases 35.

Typhoid fever, 3.

Diphtheria, 2.

Scarlet fever, 28 (one death).

Measles, 2.

Whole number of deaths during the year, 167.

Estimating the population at 8,000, the death rate would be 20⅞ per thousand, which is an exceedingly low death rate for this section of country.

There have been twenty complaints of nuisances made to the Board which required their official action, a record of which is on file with the Board.

There have been many minor nuisances abated by the health officer of which there is no official record.

The health officer has buried seventeen dead animals.

There have been 110 connections made with the deep sewer.

There have been fifty-eight notices to connect with the deep sewer, served by this Board, nearly all of which have been complied with. Many of the other connections have been made by the advice, but without the official action of the Board.

PUBLIC DEEP SEWER.

We have in Rochester proper a sewer practically complete. In East Rochester a good amount of sewer has been constructed, but here it is by no means complete.

In the village of Gonic there is no sewerage whatever. This village is situated on the bank of the river and could be easily furnished with the necessary sewerage. As it is at the present time, a great many of the buildings are built upon the bank and it is difficult to get at them in order to put them in a sanitary condition, while the city at a small outlay could put in a substantial system of sewerage which in the near future would necessitate the inhabitants taking and using more water from the city, and we would certainly recommend that this receive your immediate attention.

In any town which needs a sewer it is impossible to have one absolutely complete. In our opinion there are some extensions needed at the present time in Rochester proper and East Rochester. We recommend that the following extensions be made in the early future, viz.: 1st, from Wakefield street to the land of Ezekiel Wentworth through Barker's court. 2d, from Winter street along Front street to the fifth house. 3d, Union street entire in East Rochester. There is now before your honorable body a petition for an extension of sewer from Linden street to a point at which connection can be made

with Wallace's tannery, according to the original plan of the sewer which we advise be granted at an early date.

A very large number of connections have been made with the sewer and in no instance has a connection been unsatisfactory. In our opinion we have a sewer most excellently constructed and of sufficient capacity to accommodate at least ten times the present population.

WATER.

At various times complaints have been made concerning our water supply, not on account of quantity, but quality, which has not been without reason.

Certainly, at times, the taste has not been conducive to the formation of the water habit to the exclusion of all other beverages and the odor has met with many comparisons and has been accounted for in various ways. Repeated examinations have shown that the cause or causes for the disagreeable features already alluded to are not of a disease producing character. In our opinion, judging from the character of the prevailing diseases in our city, the water is not injurious to public health.

VACCINATION.

We believe it our duty to impress upon the proper authorities the necessity of complying with the law in regard to this very important subject. Small pox does not prevail so extensively as it has at times in the past. The reason why it does not is simply vaccination. When done by pure virus, which can be obtained at any time and in any place, and under modern methods, it is absolutely safe.

PUBLIC BUILDINGS.

Some of our school buildings are in a most deplorable condition from a sanitary standpoint. We have already called your attention to this subject and, at this time, we cannot add anything to what we have already said. We hope and believe that the next report from the Board of Health will show a much improved condition. We have had occasion to consult the State Board of Health at various times. Our consultations have, at all times, been very satisfactory. We have always found that body ready to aid and assist in all matters which would result in benefiting the public from the standpoint of public health.

Respectfully submitted,

CHARLES BLAZO,
JOHN H. NEAL,
SHERWOOD W. GOODWIN. } *Board of Health.*

Rochester, N. H., December 31, 1899.

Sixth Annual Report

OF THE

LIBRARY TRUSTEES

OF THE

ROCHESTER PUBLIC LIBRARY

1899

At the meeting of the Trustees of the Library, January 22, 1900, it was voted that the report of the Secretary, together with the report of the Librarian, be presented as the annual report of the Trustees.

REPORT OF LIBRARY TRUSTEES.

To the City Council of the City of Rochester:

The report of the Trustees of the Public Library is herewith respectfully submitted, together with the Librarian's report, giving more complete details, and such recommendations as the Trustees deem advisable. The catalogue is in the hands of the printer and will be ready for delivery about the first of February. The estimated cost is about $390.

On account of the printing of the catalogue, which we expected would be ready for delivery the first of January, and the purpose of the Trustees to keep within the appropriation, only $295.91 were expended for new books during the past year. This has caused a great deal of dissatisfaction among the patrons of the library. It is the desire of the Trustees to place upon the shelves of the library all books of general interest and permanent value, as well as the books of the day that are in demand by the public. But we necessarily will come far short of this ideal limit, unless the City Council make a liberal appropriation for the library.

We have in the library about 75 volumes of the popular magazines that should be bound in order to preserve them. These magazines are in demand by the public, and should be placed upon the shelves for distribution. We have also a valuable set of music books that should be bound, and many other historical documents which are

being mutilated by mice in the library room. The above books and documents can be bound and preserved at an estimated cost of $150.

We also call your attention to the condition of the floor of the library room, worn in places, open cracks for the accumulation of dirt, with the continual tread back and forth of the patrons of the library and reading-room, causing a dust in the room to the injury of the books upon the shelves. This should be replaced by a new floor. Additional shelves must be added to the library during the year, but we have no room.

Our reading-room, at times, has been taxed to its utmost capacity. One thousand and five more patrons availed themselves of the privileges of the reading-room the past year than the previous year, and we have only chairs and tables to accommodate fourteen persons at one time. We trust the Council will investigate this matter, and take action to build an addition to the present building in order to meet the demands of its patrons.

We call your attention to the needs of our public library, for we believe, as another has said, the public library is the people's college. Open to all, it supplements and completes the public school system, the logical and living crown of it. It is one of the nobler forms of the new life of brotherly cooperation. A dollar may purchase a good book for selfish private luxury. A hundred or a thousand people join forces, and the solitary private book is multiplied by a hundred, or a thousand, accessible to every one. In this view parsimony is no economy, but its deceptive counterfeit. As each person saves a dollar, he robs himself of the cooperative outcome of a thousand dollars. Best results for the welfare of all the people may involve liberal spending.

In view of the needs of the library, we ask for a liberal appropriation. During the past year the City of Rochester and State of New Hampshire suffered a severe loss in the death of Mr. Josiah H. Whittier, of East Rochester, who was one of the originators of the movement for a free public library in our city, and was a trustee of the same from the time of its inauguration; who was, moreover, for many years the secretary of the New Hampshire Board of Library Commissioners, and to whose efforts were very largely due the advanced library legislation of this State, and the proud position which the State occupies in the number of its free public libraries. At the time of his death suitable resolutions were adopted by the Trustees and placed upon record.

Mr. J. E. McDuffee, on account of his health, resigned as a member of the Trustees in October of the past year. From the organization of the Public Library until the time of his resignation he was secretary of the board. He devoted a great deal of his time in the interests of the Library. In the selection of books, the Trustees depended largely upon him. His associates of the Trustees deeply regret his resignation.

The Trustees wish to express their satisfaction in the efficient services of the librarian and assistants during the past year. JOHN YOUNG, *Secretary.*

To the Board of Trustees of the Rochester Public Library:

GENTLEMEN: — To the casual observer the work of the library for 1899 may vary but little from previous years, but you who know something of its every-day life realize what the library has become to the people and that results cannot be estimated by figures alone.

The library contains, at the time of this report, 6,814 volumes. Of the 327 added during the year 4 replace books lost or injured, 54 have been gifts and 269 purchased. Much fault has been found that so few new books have been added, and even the promise of a printed catalogue has failed to satisfy.

1,006 books have been given out at East Rochester, 488 less than at last report; 1,607 at Gonic, 6 less than during the year before; 23,395 at the Central library, a gain of 256 over last year, the total circulation for the year being 26,008.

During the year 30 cards have been issued at Gonic, 43 at East Rochester, and 163 at the Central library. Entire number of registrations 3,340, two of these are non-residents, who pay an annual fee of one dollar.

A serious question with your librarian is how to reach those who have thus far manifested no interest in the library. One librarian recommends advertising, as the business man does his business; another suggests a personal canvas. The printed catalogue, which after many delays will soon be ready, may help to some extent, as it will show that the library can provide that which entertains as well as that which instructs.

The attendance in the reading-room for the year is 3,694, 1,005 more than last year. Often the room is taxed to its utmost capacity, and the well-thumbed pages of the forty periodicals testify to their popularity.

The wants and needs of the library are numerous. The demands of teachers and students and of the members of the various literary clubs make it necessary to add many books, especially in certain classes. Patrons are expecting more from the library, and as far forth as possible these demands must be met. Very much valuable mate-

rial is locked up in the fifty or seventy-five volumes of magazines, which are laid one side until they can be bound. Beside the extra shelving some better arrangement is needed for keeping the larger reference books, atlases, etc.

It is the earnest desire of your librarian that the library may become more and more to the people of Rochester, and that every man, woman and child may feel a personal interest in it.

Grateful acknowledgment is made to those who have in any way contributed to the successfulness of the year's work, and to the donors of papers, books, plants and flowers, also to the Trustees for their courtesy and consideration.

Respectfully submitted

LILLIAN E. PARSHLEY,

Librarian.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board:

I herewith submit my third annual report as Superintendent of Schools.

The general work of the schools has progressed along the same lines as in the preceding year. We have continued the policy of improving our teaching as far as possible before attempting to expand its scope, believing that the true enrichment of the common school course of study is to be attained through skilful and enthusiastic teaching rather than by the multiplication of subjects to be taught.

While there is doubtless still room for improvement both in the manner and matter of our teaching, yet we have certainly made substantial progress and are doing our work to-day with a truer appreciation of its scope and possibilities, and a more painstaking fidelity than ever before.

The year just closed has been comparatively free from interruptions occasioned by sickness, and the percentage of attendance has been somewhat better than that of last year. It is still, however, lower than it should be. We are not looking for a perfect attendance; a certain amount of absence is necessary and to be expected, but it seems to me that an allowance of six per cent. should cover all the absence that is really necessary, and that we should not be satisfied while our percentage is below 94.

Our record for punctuality last year was very bad, a record that was creditable neither to teachers, pupils nor parents. Over 3000 instances of tardiness in one year indicated very plainly that punctuality is a virtue that has not been held in high esteem among us. As a business habit I consider promptness well worth cultivating, and believe that it is as much the business of the school to teach it as to teach arithmetic or any other subject. For the past year we have been making a systematic effort to improve our record in this particular. The result of our year's effort is a reduction of 669 in the total number of tardinesses, a gain of 21 per cent. The High school has done particularly well in this respect, reducing its tardiness 38 per cent. during the year. We shall continue our efforts in the same direction for the coming year; for though we have made a substantial gain our record is not yet one of which we can boast. It is simply a good deal better than it was, and we must make it a good deal better yet. It is one of the duties of the teacher to secure prompt attendance, and our teachers are expected to do all that is in their power to secure it. Prompt and regular attendance on the part of the pupils are necessary conditions to good work in schools, and we should not rest satisfied until we have realized these conditions.

In the matter of school accommodations, we are apparently about where we were a year ago. With three of our present buildings under the ban of the Board of Health, the need for a new building becomes more imperative than ever before. The Council has voted an appropriation, and all that now seems to stand in the way of the realization of our hopes, is the inability of the committee to agree upon a suitable location for the building. It is to be hoped that an agreement may soon be reached upon this

point, as there is urgent need that the building be ready for occupancy at the opening of the next school year.

Very little has been done in the way of repairs during the past year ; but whatever has been saved on that account will have to be expended the coming year. The School street building should be thoroughly overhauled, the school grounds at Gonic and East Rochester need attention, better heating facilities should be provided at the High school building, and the Main road and Rogers schoolhouses should be painted, refurnished and otherwise rendered habitable. If the school on Upham street is not discontinued that, too, will have to be extensively repaired ; so that altogether the item of repairs for the coming year will be a considerable one. With a new and commodious building to take the place of the Main street and Upham street buildings and with the School street building suitably remodeled, our school accommodations will be very good indeed — as good as those usually found in other progressive communities.

The lack of school accommodations has been urged as a reason why we have not enforced more rigidly the school attendance laws. It does not seem to me to be a good excuse. The law provides that all pupils under sixteen years of age shall attend school for a certain number of weeks each year, and it is the duty of the school board to provide accommodations and instruction for them. If we have a new building at our disposal the coming year, we can accommodate all pupils who should attend, but if we have not, I would suggest that the board hire a room and establish an ungraded school for the benefit of those pupils who should be in school and who are on the street or working in the mills and then instruct the truant officer to enforce the law strictly.

Chapter 93, Section 2 of the public statutes says : — No child shall attend any public school unless he has been vaccinated or has had the small pox. This law has not been enforced in Rochester for some time, but in view of the fact that the small pox was somewhat prevalent in certain sections of Massachusetts and Maine, it was thought wise to enforce it ; accordingly, at the opening of the fall term, the school board directed that all pupils attending the public schools should be vaccinated. As might have been expected under the circumstances, considerable opposition has developed among the parents to complying with the law, and the law itself has been seriously questioned. It is not the business of teachers or superintendent to pass upon the constitutionality of the law. We are simply instructed to enforce it, and this we intend to do. It is expected that during the year, all will comply with the law.

Owing to the crowded condition of the Main street building, it was necessary to send a part of the fifth grade back to Maple street at the opening of the fall term. The same thing happened last year, so that the grades in the Maple street building have been increased from three to five within the past two years. It is hoped that we may be able another year to reduce the number to four as that is about all that can be taught to the best advantage in that building.

The only schools that have been over crowded during the year are the Main street grammar, the eighth grade and the Gonic primary. In these three rooms the number of pupils has been considerably in excess of the normal number ; still we have been able to provide for them all, and the quality of the work has not suffered greatly on account of the over crowding, except possibly in the Gonic

primary school. There are two grades in this room, and over sixty pupils. Under these conditions, no teacher, however faithful, can do full justice to all the pupils. Beginners need a great deal of individual direction and help from the teacher, and for this reason it seems to me that the best work cannot be justly expected of the teacher when the number of her pupils is greater than thirty-five. I believe, too, that the first grade should always be separated from the higher grades when it is possible to do so. This change would have been made in the Gonic school if it had seemed possible to do it without the employment of another teacher, but as each entering class grows larger, it seems probable that it will have to be made in the near future anyway.

The plan, adopted a little more than a year ago, of marking pupils by letter instead of by figures and making the annual promotions depend upon the work in the daily recitations rather than upon the results of examinations, is proving generally satisfactory. It is not apparent that the discontinuance of percentages and all marks that indicate relative rank in the various grades, has in any degree lowered the standard of scholarship. In fact, the pupils work quite as faithfully now that the question of rank is entirely eliminated; and there is no evidence thus far, that the promotions, made upon the judgment of the various teachers have been made unwisely. Certainly no parents have yet availed themselves of the right to appeal from the decision of the teachers. During the past year a number of pupils have been promoted out of the regular order, when their health and the quality of their work would seem to warrant it. All of these promotions have been attended with good results. The course of study is now arranged so that these irregular promotions can be

made much more satisfactorily than under the old course.

The work in music and drawing has been continued under the direction of one teacher, the same as last year. There are not many teachers who are qualified to direct the work of both departments, and when Miss Manly resigned early in the year, we found it a difficult matter to fill the vacancy caused by her resignation. However, under the present teacher, the work in both departments has gone forward prosperously. The improvement, particularly in drawing, has been marked. As might naturally be expected, this improvement has been greatest in the lower grades, and it will be some few years yet before we can reasonably expect the best of work in all our grades. We should not expect that two years' training in music and drawing will produce the same results as ten years' training, but be content with a gradual improvement from year to year until the pupils in the higher grades have had time to receive the full benefit of the course of instruction. Further information regarding the work in music and drawing will be found in the report of the Supervisor, which is appended.

The High school has had a prosperous year. The attendance has been reasonably good and the general spirit and working disposition of the school is excellent. Although the work has not been equally strong in every particular yet on the whole a good year's work has been done. The school is in good condition and is doing work that will compare favorably with that of other schools of its class.

A good physical laboratory is still much needed. For the past year we have been using a make-shift, which has served the purpose tolerably well, but the room which we

are using is wanted for other purposes and we are still hampered by the lack of sufficient accommodations. Considerable apparatus has been purchased for the school during the year, and in spite of the lack of room good work has been accomplished in physics.

Further details will be found in the principal's report, which is appended.

The teachers' meetings have been continued as in the past; and, although attendance on the part of teachers has been purely voluntary, there have been few absences from the meetings. The object of these meetings has been to encourage the professional spirit among teachers, to consider some of the larger questions of education, and to discuss the ordinary matters of school teaching and school management. In other words, to stimulate growth, for without growth there can be no real progress. The character of the school will depend upon the efficiency of the teaching force, and it is the problem for the school board to keep the teaching force at its highest efficiency. This implies the professional growth of those teachers already employed and the careful selection of such new teachers as may be elected. Too much care can not be exercised in the selection of teachers. Sentiment should not enter into the matter at all. It is the right of the children and the community to have the services of the best and most competent teachers that can be found, and in the case of every applicant for a position her character and professional ability alone should determine her standing before the board.

The character which a teacher has borne is easily ascertained; her professional ability is not so easily determined. Examinations do not always show a teacher's real worth, but if of the right character and of sufficient scope, they

do reveal something of her scholastic and professional knowledge ; and whatever else may enter into the making up of a good teacher, certainly a knowledge of the subjects to be taught and of approved methods of teaching can not be ignored.

The certification of teachers is, I believe, a function which should belong to the State, not the local authorities, and as the State is now ready to examine teachers and issue certificates, I believe that it would be for the interest of our schools if the Board should demand that hereafter all applicants for positions in our graded schools should go before the State examiners and prove that they have the requisite scholastic and professional knowledge to insure their probable success. The standard which the State Superintendent has set for the whole State is certainly none too high for the City of Rochester.

The usual statistical tables are appended, also a financial statement for the year. The financial statement is for the year ending December 31, 1899, and the attendance tables and other statistics are for the school year ending August 1, 1899.

The cost of text-books and supplies for the past year shows a considerable increase, which is due to the replacing of a large number of old and worn-out books. If this work can be continued for another year at about the same expense, the books belonging to the City will be in better condition, and the expense may then be somewhat reduced again.

Respectfully submitted,

Wm. N. Cragin.

REPORT OF SUPERVISOR OF MUSIC AND DRAWING.

Mr. W. N. Cragin, Superintendent of Schools :

DEAR SIR : — When I began my work in Rochester last March, I found most of the schools using the First Music Reader. At that time it was necessary to do so in order to master the intervals and time difficulties, so that they would be fitted for two and three voice work.

About the first of May I started two voice work in the grammar grades, using the Second Music Reader. This fall we took up three voice work with great interest.

I feel especially pleased with the progress made in most of the grammar grades, throughout the city. It has been my aim to build up the work grade by grade, but in the primary grades it is somewhat difficult to do this properly, owing to the way the classes are arranged. For instance, when we have a first and second grade together, we find this trouble. The little ones just entering school know nothing about the work. The second grade has had a year's training. The consequence is, that the second grade must be retarded in its work while the first grade is taught the first rudiments. Then, too, the second grade will be able to sing the exercises and songs, and it is very difficult to ascertain whether the little ones are borne along, or whether they are relying upon their own knowledge.

The same trouble arises in the introduction of two voice work, when we have the fourth and fifth grades together.

One has to wait while the other class makes up the work. In spite of these difficulties, we find smoother, softer and more liquid tones in all grades.

The High school, although working well, is not up to High school music. While the quality of tone and the interval work is excellent, music has not been taught in the schools long enough to enable the school, as a whole, to read at sight with that facility which would be possible with longer training. Though the spirit is there, it is, of course, unreasonable to expect them to read music as intelligently and quickly as their successors will do who shall have had the extra drill. The work has been largely chorus work, and I think has proved of interest to all.

In drawing I have followed as near as practicable the course laid out by Mr. J. F. Hopkins, of Boston, which is partially based upon the Prang system. The scholars have been extremely interested in the color work, and also in what brush work and manual training it has been possible to introduce.

The little ones have been especially pleased with the modeling in clay, and also with their crude pictures of the domestic animals.

During the year we have had form study, using the different models and objects based upon them.

Nature study has been introduced by the drawing of leaves and plants, and in some cases, animals. We have had the arrangement of figures; geometric figures, borders and space-filling.

Manual training has been introduced to a certain extent by modeling, paper cutting, paper folding and by the making of objects in paper from patterns and working drawings. The imagination has been stimulated by the illustrated stories and by pictures of imaginary scenes.

I believe that by the study of music and drawing, the children will become nobler men and women. Not only is drawing an educator in itself, but it also adds stimulus to the other studies by the quickened perception, and perhaps by the idealization which is aroused by that study.

Music, too, has its place as an educational factor. To my mind it develops, more than any other study, the mental, moral and physical nature. It has been said, "Let me make the songs of a nation and I care not who makes its laws." Who can sing the songs of the masters with proper feeling and expression without being benefitted thereby? In the lowest grades we have the simple ballads and songs adapted from the German and Italian, going on from grade to grade with words arranged according to their needs.

The power of music never came home as forcibly to me as it did one day last spring. A class was singing the Thungarian folk song "How Can I Leave Thee?" with remarkable expression for that class. Looking down I espied one of the largest and generally rudest boy, struggling with his tears. Was not that boy being ennobled by the feelings which that song had been able to arouse?

It gives me great pleasure to acknowledge the helpful and constant support and cooperation of the teachers.

In conclusion allow me to thank you and the members of the school committee for your kind advice, interest and hearty cooperation with me in the work.

Respectfully submitted,

LIZZIE F. BURRELL.

Rochester, N. H., December 31, 1899.

REPORT OF PRINCIPAL OF HIGH SCHOOL.

Mr. William N. Cragin, Superintendent of Schools :—

In accordance with the recently established custom I present a brief statement of the condition of the High school for the past year.

The membership for this year is as follows : — One hundred and forty have been registered. The entering class numbered 44 ; 20 boys and 24 girls. These were promoted from the following schools : first grade grammar, 24 ; East Rochester, 8 ; Gonic, 3 ; St. Mary's Parochial school, 1 ; rural schools, 2 ; other schools, 4. The English course was elected by 2 ; English Latin by 38 ; the classical course by 4. The Sophomore class numbers 48 ; 19 boys and 29 girls. Of these 5 take the English course, 38 the English Latin, 5 the Classical. The Junior numbers 26 ; 14 boys and 12 girls, with 6 pursuing the English course, 18 the English Latin, and 2 the Classical. The Senior class, numbering 22, 5 boys and 17 girls, has 10 of English course, 11 of English Latin, 1 of Classical. The total enrolment, then, for the year ending December 31, 1899, is 140 ; English, 23, English Latin, 105, Classical, 12, French, all classes, 78.

The average attendance and punctuality show some improvement upon that of last year, yet we are assured that both parents and pupils still labor under some misapprehension as to the full significance of promptness and regularity, otherwise a much more decided change would

have resulted. We hope, however, that the slight advance made in this direction has come from a fixed determination for improvement, whose effect will be more clearly seen in the future.

It has been our endeavor in this as in all other years of our connection with the school to impress upon pupils the importance of self-discipline in the highest sense of the term; to impart the belief that character is based upon honorable, self-regulated conduct, and that he who is to rule his world must first be wholly master of himself. So it may be permitted to say here that, although our standard is by no means yet attained, we are able to view with satisfaction the results of the year in this direction.

The work of teachers is still carried on by departments, a plan which commends itself to all who have considered its advantages; for while no instructor who has at heart the evident interest of his pupils will seek to bring into undue prominence his special branch, this method undoubtedly allows a perfection in one's chosen work which could not otherwise be reached.

Music and drawing have progressed with commendable results under the direction of Miss Burrell. It is to be regretted that our time should be so fully occupied with other prescribed work as to make proficiency in these important branches hardly possible. The fact cannot be ignored, that competing as we do with schools whose year counts 38 or 40 weeks, we are placed at a disadvantage, which makes the extension of our own school year, to say the least, desirable.

Of our good standing as a college preparatory school it is assumed that our representation in the colleges for the current year is sufficient proof. Dartmouth has 7 of our students; Boston Technology, 1; Wellesley, 4; Bates, 2;

Boston University, 1; State college, 1; while Bridgewater, Plymouth and Gorham Normal schools claim several from our midst. The class of 1900 we hope will continue to increase this number.

It is a significant fact that the coming century is bringing a demand for higher scholarship from the fitting schools. Over crowded colleges ask not "how many will you send us," but "of what quality." Facing this condition, will not citizens, as parents and as promoters of the best interests of the republic, provide facilities adequate to the best instruction of their children. Many, it is true, may not hope to reach beyond the High school, but in such cases how even more desirable that our schools should perform well the double duty thus devolving upon it, to fit not only for the college campaign but also for the great field of life.

In the way of decoration, we have added to our limited collection an excellent picture of the Roman Forum, presented by the class of 1899. It is trusted that the example of this class will be followed by all succeeding classes. Our school library remains in its old condition, perhaps somewhat more dilapidated than formerly. We are, indeed, sadly in need of reference books of all descriptions, from science to history. Besides a few worn dictionaries, there is nothing upon our shelves to inspire the student of English with a desire for a deeper insight into the foundation of his own language than the text-book can afford. We believe there is a culture emanating from the mere contact with books, rich in the treasures of the past. What student of French will not go to his work with redoubled enthusiasm after reading one of the gems of French literature; and who, as he reads classic story and legend of ages ago, will not turn to his Latin translation

with energy renewed? The Public Library has proven itself in this way invaluable, yet we hold that our crying need is books — books of our own — which, serving as a *daily* inspiration, will lift upon a higher plane the whole school life.

Finally allow me to say much gratitude is due Superintendent and Board for the interest they have manifested in securing so far as possible all that is necessary to the modern school equipment.

Respectfully submitted.

J. S. Richardson, *Principal.*

Rochester, N. H. December 31, 1899.

CLASS DAY EXERCISES

CLASS OF 1899.

Rochester High School, Wednesday Afternoon, June 14,
At Hayes Opera House.

PROGRAM:

The Great Injury of Unrestricted Immigration, *Henry Cabot Lodge*

BENEDICTION,
REV. J. MANTER.

CLASS ODE.

WORDS AND MUSIC BY

ALICE E. DALRYMPLE.

As in the fall when winds are growing chill
The clinging leaves from some tall tree are torn,
And scattered lie wherever they are borne,
Yielding their being to enrich earth still,
So severed is the class of ninety-nine
From those, who, for a season all too brief,
Have ministered as branch and twig to leaf;
Sweet memories of their help our hearts enshrine.

Now parted from each other our lives fall
Whichever way the winds of time may blow;
God guideth us by paths we cannot know,
But where he sends us we may give our all
To ease some burden, make some heart more light;
Should sorrows dark o'ertake us, may we then
From deepened souls breathe love to fellowmen,
Like flowers that sweeter fragrance shed at night.

We'll go to labor with strong hearts and true,
For days are brighter where there's work to do;
May radiant hope within, each spirit bless,
Tears only promise coming happiness;
The joys of meeting we could never know,
Were there no partings in the way we go;
Without the night, day would not seem so fair;
Spring follows winter; God is everywhere.
